

# HOW DO WE BRING OUR LESBIAN, GAY AND BISEXUAL CHILDREN OUT OF THE TRANS FOREST?

( AND STOP THEM GETTING LOST THERE, TOO )

**OUR  
DUTY**

Nearly every city and large town in the UK has an affinity group for LGBTQ+ Youth.

Trusting in the extraordinary historic gains made by the gay movement we foolishly assumed that our children's involvement was a continuation of that noble fight for equality.

Little did we know that there was a cuckoo in the nest of the LGB constituency.

Our gay sons came home thinking they were girls.

Our lesbian daughters came home thinking they were boys.

Our LGB children needed to find their LGB tribe.

Instead, they were groomed into a belief system that elevates a psychological condition to the status of an "identity", one that puts them on a pathway that leads to social, pharmaceutical, medical, and physical harm and lifelong sexual dysfunction.

Our often quirky, perhaps gender non-conforming kids need to discover who they really are, not be fed a synthetic identity that also requires buying in to a whole ideological belief system.

Their true selves are **never** the opposite sex.

As LGB people, you are in a unique position and can help the next generation of LGB youth find peace and comfort in their sexuality and help save them from the clutches of the TQ+ cuckoo in the nest.

**This ideology cannot be fully challenged without you**, and one of its central beliefs is that sexuality does not exist, this for your movement is a deeply destructive idea.

Thank you from the Mums and Dads of LGB kids
